Church, the Center for Disease Control and Prevention

With the outbreak of H1N1 being in the news constantly, the question on every one's mind has been, "What are the symptoms?" We want to detect the symptoms early to prevent the disease from running its course, if we can. If the disease H1N1 is allowed to run its course, it can be fatal.

We are all aware the symptoms are not the disease itself but an early warning system of something problematic. Frequently, we get sidetracked by spending more time and energy in trying to find a cure for the symptoms rather than the disease.

The Center of Disease Control put out reports to help us recognize the symptoms of the disease because that helps us determine a course of action to take in order to keep the disease from running its course.

This thought process can also be applicable to the spiritual realm. We can ask, "What are the symptoms of a spiritual disease?" The Apostle Paul writes in I Corinthians 3:1-4 about the spiritual disease affecting the Christians at Corinth which caused them to be unable to digest the spiritual food Paul was offering them. They had had many opportunities to develop spiritually but had not. The symptoms of the spiritual disease affecting them were: "there continues to be jealousy and strife among you"; you are "behaving like ordinary people" and an inability to digest the word of God and to incorporate the word of God into daily living.

Other symptoms that point to a spiritual infection are:

- Lack of Appetite for God's Word (Hebrews 5:12-14)
- Lack of Discernment (Ephesians 4:14)
- Lack of Humility and prayer (II Chronicles 7:14)
- Lack of Passion for the Lost (Luke 15)
- Lack of Commitment to sharing our Faith (Matthew 28:18-20)
- Lack of regular Worshiping Together (Hebrews 10:24-25)

What is our disease that causes these symptoms? Where and to whom do we go to find healing for this potentially fatal disease? Oh, where can we go but to the Lord?

- Lack of Concentration on Jesus (Hebrews 2:1 and Hebrews 12:2-3).
